

TABLE OF CONTENTS

Section I: OVERVIEW	<u>Page</u>
Background and Data Sources	1
Incidence and survival data	1
Mortality data	2
Number of estimated cancers and deaths in 1997	2
Population data	3
Long-Term Trends, 1950-1994	3
Summary Tables	3
Years of Life Lost Due to Premature Death from Various Causes	4
Cancer Prevalence	4
Probability of Being Diagnosed with or Dying from Cancer	4
Lifetime and interval risks of being diagnosed with cancer	4
Lifetime risk of dying from cancer	5
U.S. Cancer Mortality Rates By State	5
Incidence and Mortality Time Trends	7
Interpretation of Cancer Statistics	7
Survival rates for all sites combined	7
Early detection/screening	7
Changes in diagnostic criteria	8
Technological advances in diagnostic procedures	8
Evolution of stage classifications	8
Interpreting relative survival rates	9
Comparison with other databases	9
Errors in data collection	9
Comparison of this report with previous reports	9
Standard Errors of the Rates	10
Survival rates	10
Incidence and mortality rates	10
Definitions	11
Incidence rate	11
Mortality rate	11
Age-adjusted rate	11
Percent change	11

TABLE OF CONTENTS -- continued

	<u>Page</u>
Estimated annual percent change	11
Observed survival rate	11
Relative survival rate	11
Standard error	12
Person years of life lost	12
Average years of life lost	12
Stage of disease at diagnosis	12
References	12

Table XXVI-7 Incidence, mortality and survival rates summary table, all races, females ...	449
Table XXVI-8 Risks of being diagnosed with or dying from specific cancer	450
Table XXVI-9 Mortality by state: Average annual age-adjusted cancer mortality rates by state, 1990-94, all races, males and females	451
Table XXVI-10 Mortality by state: Average annual age-adjusted cancer mortality rates by state, 1990-94, all races, males	452
Table XXVI-11 Mortality by state: Average annual age-adjusted cancer mortality rates by state, 1990-94, all races females	453
Table XXVI-12 Age-adjusted incidence rates, 1990-94 and five-year relative survival rates, 1986-93 by registry, race and sex	454
Figure XXVI-1 Incidence and mortality rates by year of diagnosis/death and race, males	455
Figure XXVI-2 Incidence and mortality rates by year of diagnosis/death and race, females	456
Section XXVII: CANCER IN CHILDREN (Ages 0-14 and 0-19)	
Table XXVII-1 Age-adjusted incidence rates (1973-74, 1993-94) and trends (1973-94) for selected cancers and all cancers, all races	457
Table XXVII-2 Age-adjusted mortality rates (1973-74, 1993-94) and trends (1973-94) for selected cancers and all cancers, by race	458
Table XXVII-3 Age-adjusted incidence rates for selected cancers and all cancers, males and females	459
Table XXVII-4 Age-adjusted mortality rates for selected cancers and all cancers, males and females	460

TABLE OF CONTENTS -- continued

		<u>Page</u>
Table XXVII-5	Age-adjusted mortality rates for selected cancers and all cancers, males and females, whites	461
Table XXVII-6	Age-adjusted mortality rates for selected cancers and all cancers, males and females, blacks	462
Table XXVII-7	Age-adjusted incidence and mortality rates for 1990-94, all races, males and females	463
Table XXVII-8	Five-year relative survival rates for selected cancers, all races, males and females	464
Table XXVII-9	Incidence, mortality, and five-year relative survival rates for top cancer sites by five-year age group, all races, males and females	465
Table XXVII-10	Incidence, mortality and survival rates summary table, all races, males and females, ages 0-14	466
Table XXVII-11	Incidence, mortality and survival rates summary table, all races, males and females, ages 0-19	467
APPENDIX		
Table A-1	Number of incidence cases by race and sex, 1990-94, SEER areas	468
Table A-2	Number of deaths by race and sex, 1990-94, total U.S.	469
Table A-3	SEER recode for primary site based on ICD-0-2	470
Table A-4	SEER site groupings for ICD-9 NCHS mortality data	473
Table A-5	Annual populations averaged over 1990-94 by state	475
Table A-6	Annual populations averaged over 1990-94 by SEER area	477
Table A-7	U.S. 1970 standard million and world standard million populations by age	478
Table A-8	Follow-up rates (percent of first primaries) for cases diagnosed 1973-93 by follow-up year, registry, sex, and age	479
